LAMINATING MACHINE

The Laminating machine 700 and 1300 type machines work with impressive, high standard and good quality output. For example these can be boxes, displays, advertisement materials. The machine is able to work with corrugated cardboard and printed or one coloured 80-500 g/m² type papers. The laminating machine is manually fed and uses waterbased glue. The adjustable double rolls make possible to help prevent creasing and bubbles.

Type	KSI 700	KSI 1000	KSI 1300
Width (mm)	920	1220	1720
Length (mm)	3000	4050	4500
High (mm)	950	950	950
Width of work (mm)	720	1020	1320
Length of work (mm)	1100	1500	2000
Engine(W) 230VAC	2 x 250	2 x 250	370 és 550
Pneumatic valve (bar)	4	4	4
Weight (kg)	680	850	1280
Orbital speed (m/s)	0,12-0,55	0,12-0,5	0,12-0,5
Service(million pieces)	0,5	0,5	0,5
Max. producible pieces (piece/h)	1000	800	700

We deliver our standard made machine, transformed into special, according to the attribute of the product and the demand of the client (for example: working from roll).
